

To see your dashboard, click on the icon «**Student monitoring**».

Your dashboard will appear. You can now see how each of your students are progressing.

The results from the last **sequence** worked on will be displayed.

Each student account will display icons that represent the exercises.

The colours represent the achievement level for the exercise:

- The white icon means the child was completing the exercise and was interrupted.
- The green icon indicates that the child completed the exercise and did very well.
- The orange icon means the child completed the exercise and with some mistakes.
- The red icon indicates the child did not complete the exercise because they had too many difficulties.
