

# Exercise 2: I can write cursive - Settings

After you have created a new sequence, select «**I can write cursive**».

- I can write capital letters
- I can write cursive
- I can write my numbers
- I am practicing tracing lines
- I can control the pressure of pencil
- I know my shapes and can outline them
- I can identify different letters and words

Complete the exercise form by entering the **word to write** then define the **box size** and the **ruling**.

The screenshot shows the 'Ajout d'un nouvel exercice' form. Callouts point to the following fields:

- Word to write:** A text input field containing 'Free word(s)' and a dropdown menu with 'notebook' selected. Below it is the instruction 'To create a list, write a word'.
- Mode:** A dropdown menu with 'Levé de crayon' selected. A callout shows a preview of 'Pencil lifts' and 'Letter by letter' modes.
- Box size:** Two radio button options: 'Large boxes' and 'Small boxes'.
- Ruling:** Three radio button options for different line styles.

You can verify the exercise with the visual on the left. The «**scenario**» button shows each step in the exercise. The «**play**» button allows you to try the exercise for yourself (the strokes will not be saved).

The three screenshots illustrate the exercise flow:

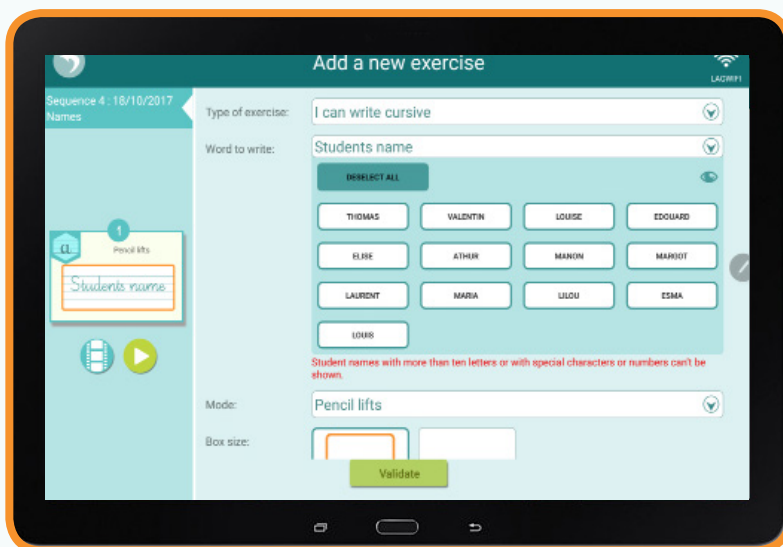

- Scenario:** A screen titled 'Exercice scenario (letter by letter): I can write cursive'. It shows a list of steps. Step 1 is highlighted: 'Write letters one-by-one with analysis. Three times per letter.' Below the text, the cursive letter 'n' is shown being written stroke by stroke.
- Play:** A screen with a large green play button and a 'Pencil lifts' button. The word 'notebook' is visible in the background.
- Result:** A screen showing the final cursive writing of the word 'notebook' on a lined background. The letter 'n' is highlighted with a box, and a checkmark is visible in the bottom right corner.

## Exercise 2: I can write cursive - Settings

It is possible to generate an exercise with your students' names in cursive letters «**Students' name**».

To complete your exercise click «**validate**».

The exercise will appear in the same sequence.
