

Exercise 6: I know my shapes and can outline them

Description

"**I know my shapes and can outline them**" is an exercise to improve fine motor skills, identify shapes, and to help develop imagination and creativity.

Exercise Advantages

- Identify shapes from a variety of illustrations and elements (photos, designs, images, etc)
- Teachers define the level of precision for the outline analysis
- Scenarios adapt to the student's level (simple to advanced)
- Teachers personalize interactive shape models

Exercise 6: I know my shapes and can outline them

Identify shapes and learn to trace them

Abstract illustration

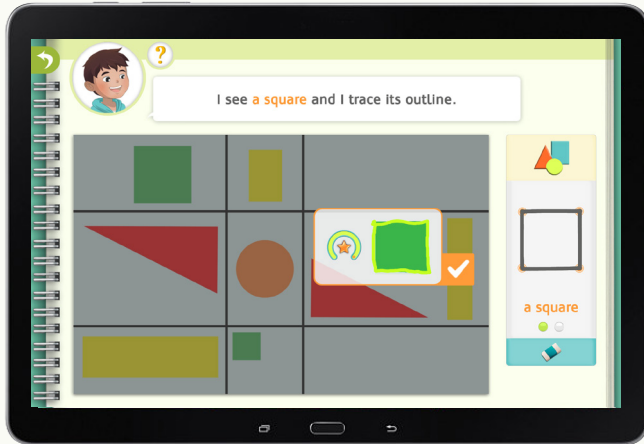

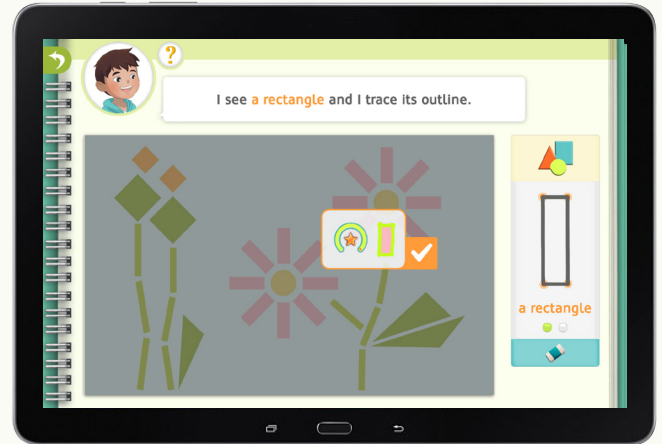

Illustration with an image

- Identify and trace the shape requested
- Interactive model of a shape on the side
- Stroke analysis focusing on precision

Create freehand illustration

- Freehand illustration design
- Use the shapes previously identified by the child
- Use different colours and stroke sizes
