

To download the trial version of Kaligo, connect your tablet to the internet, open the application «**Play Store**» that is located in apps and **connect** to your **google account**.

Go on the **Kaligo** page and download the application by clicking on «**install**».

**Accept** the terms and conditions to validate the installation. Once the application is installed, click «**open**».

UNINSTALL

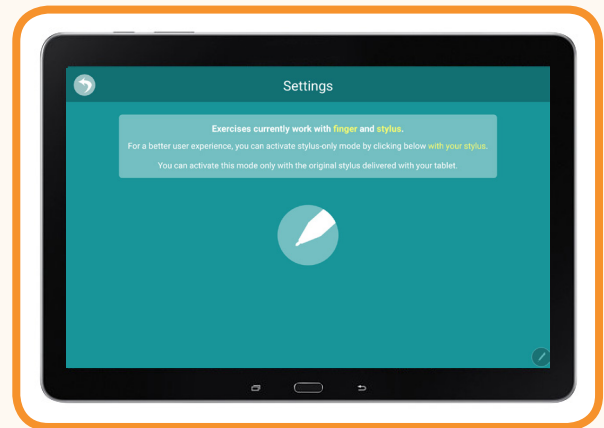

OPEN

Now you have the Kaligo trial version.

With this version you can use the application with a stylus and finger, or just a stylus. To ensure you have the best educational experience, activate the stylus mode by clicking on the finger print icon located in the upper right hand corner.

The trial version contains 4 out of the 7 exercise themes. To get access to all of the functionalities click «**Activate full version**».
